BAND BIOGRAPHY

The Keltic Reggae All Stars are one of Ireland's most compelling live acts — a collective of seasoned musicians united by a deep and genuine love of reggae music. With roots stretching from Dublin to Kingston, this is a band whose connections to the global reggae community are as real as their music.

Each member carries years of professional touring and recording experience. Between them, they've shared stages and studios with reggae legends, toured through Europe, the UK, the Caribbean and beyond, and built lasting relationships with artists, producers and promoters who represent the authentic heartbeat of the genre.

Live, the All Stars are an unstoppable force. Their performances blend roots reggae depth, ska energy, dancehall power and lovers rock emotion — creating sets that move audiences of every age and background. They read rooms with instinctive skill and deliver performances calibrated perfectly to the moment. From wedding receptions to festival headlining slots, from corporate galas to packed pub nights — they always leave the audience wanting more.
